RE: New Launchpad Instructions

Due to a system upgrade, South Dakota Medicaid has moved its Launchpad to a new site effective March 12 2013. Attached is the new link to this site and instructions on how to use the new Launchpad site. You will not find a great deal of difference but just a different look.

Please review the instructions and mark the site to beginning using on March 12, 2013. If you have questions, please give us a call at 605-773-3495 and ask to speak to an EDI representative.

These instructions have been updated in each of the Provider Manuals and the HIPAA Companion Guide on www.dss.sd.us/sdmedx This message is only pertinent if you are currently using Launchpad to submit your claims electronically or download your electronic remittance advise.

Thank you for your cooperation during this upgrade.

South Dakota Medicaid
